LA SALLE METAL-WRAPPED COFFEE TABLE

\$1895 - \$2550 REGULAR

\$1421 - \$1912 MEMBER

La Salle's 1940s industrial aesthetic combines clean proportions with hand-wrapped sheet metal. Painstakingly constructed, each piece features sheet metal secured by thousands of hand-hammered nails using a centuries-old technique. In a finishing process that takes from 7-10 days per silhouette, the metal is buffed by hand and antiqued through oxidation, displaying highs and lows that reveal the artisan's hand. Its warm patina only grows richer over time.

HIDE DETAILS -

- Crafted of wood and hand-wrapped in sheet metal
- The hand-applied, antiqued finish is purposefully uneven, inconsistent and imperfect, its surface displaying a mottled, cloudy appearance that lends it its unique character
- Mortise-and-tenon joinery
- Functional hand-hammered tacks hold the sheet metal in place
- Plinth base wrapped in metal
- This item is artisan-crafted with meticulous care. Given its handmade and hand-finished nature, variations and imperfections in the metal are to be expected and celebrated. Each item is an original and no two pieces are exactly alike.
- Wipe with a soft, dry cloth. Avoid direct sunlight, heat and placing liquids directly on furniture to protect the finish.

HIDE DIMENSIONS -

52"W x 28"D x 14½"H; 110 lbs.
 60"W x 33"D x 14½"H; 140 lbs.
 72"W x 24"D x 14½"H; 140 lbs.
