Creating a Safer America

The Consumer Product Safety Improvement Act (CPSIA) became law on August 14, 2008. Through CPSIA, Congress gave the Consumer Product Safety Commission (CPSC) powerful new tools to protect consumers and their families. Our Commissioners, staff, and stakeholders are engaged in the implementation of CPSIA through a process we call the Consumer Product Safety Risk Management System (CPSRMS). CPSRMS will help us bring together consumer advocates, manufacturers, retailers, and the general public to create dialogue and track our progress. Learn More...

Hearings and Workshops

The goal of the workshops will be to promote an open dialogue between CPSC and key constituents on matters important to the Consumer Product Safety Improvement Act. Key constituents will include manufacturers, retailers, applications providers, community groups, and other groups that have a stake in the future of consumer safety.
